Gameplay: Controllers, AI, interactions and progression

UI: Unity UI and DOTween ,Animation

SELECTED GAME PROJECTS

Games I have worked on. Contributions below describe my development work within each project.

RV Camper

Android

Unity gameplay development for the RV driving simulation.

Epic Cruise Ship Transport Sim

iOS

Gameplay development for a mobile cruise ship simulation.

Over the Hills 4x4

Android

RCC vehicle controls, health/repair and winch recovery, photo camera/album, missions, tutorials, and map integration.

Wild Life Hunting Simulator

iOS

Unity gameplay development for the wildlife hunting project.

Wild Animal Life Simulator

Android

Animal controls and AI; health, stamina, eating/drinking, XP, map and gameplay UI.

Prison Break Escape

Android & iOS

Worked on the second gameplay. The first gameplay was developed separately.

Grass Cutting

Android & iOS

Grass-cutting gameplay, controls and interactions.

Lockdown Zombies Shooter

Android & iOS

Unity gameplay development for the zombie shooter project.
